(a) width of the 0.1 < F < 0.9 band (m)
(b) relative area error, F > 0.1
(c) relative area error, F > 0.5
(d) width of the 0.1 < F < 0.9 band (m)
(e) relative area error, F > 0.1
(f) relative area error, F > 0.5
problem A: analytical reference
problem B: PRT reference
$h^{0.5}$
mean cell size (m)
full mixing, DIS
face routing, DIS
full mixing, DISV
cell-averaged exact zone (A)
PRT particles, DIS (B)
A: flow along the rows
A: flow at 30°
