
(a) Which area?
backward fraction F
F, w (-)
0
0.5
1
y (km)
(b) From which source?
volume from (m³/d)
recharge, 569
71 %
west edge, 118
15 %
river, 113
14 %
pumping 800
(c) Where does it go?
forward fraction G of a field
G (-)
≤0.001
0.1
1
(d) How long?
mean travel time, F > 0.5
years
0.1
1
10
100
25 yr
5 yr
(e) Through the seasons?
nested zones, 36 steps
inner zone
seasonal zone
ring
(f) Within 30 years?
fraction in time w
(g) How sure?
probability P(F > 0.5)
P (-)
(h) Unstructured grid?
F on a Voronoi grid
x (km)
